

25th EARSeL Symposium

GLOBAL DEVELOPMENTS IN ENVIRONMENTAL EARTH OBSERVATION FROM SPACE

Presentations are encouraged related to all fields of remote sensing applications and especially to those listed below, since sessions will be organised according to these topics:

- ◆ New sensors and instruments
- ◆ Global data sets and analysis
- ◆ Image processing techniques
- ◆ Shuttle radar techniques
- ◆ Geological hazards
- ◆ Oceanography
- ◆ Coastal zone management
- ◆ Data Fusion
- ◆ World Heritage – cultural and natural
- ◆ Agriculture Forestry and Vegetation
- ◆ Hydrology
- ◆ Land degradation and desertification
- ◆ High resolution data
- ◆ Forest fires
- ◆ Land Use and Land Cover
- ◆ Temporal Analysis of Image Data

SYMPOSIUM CHAIRMAN:

Prof. Dr. Eberhard Parlow

SCIENTIFIC COMMITTEE:

Dr. Matthias Braun, University of Bonn
Prof. Dr. Manfred Buchroithner, University Dresden
Dr. Mário Caetano, Instituto Geográfico Português
Dr. J. Bioucas Dias, Technical University of Lisbon
Dr. Joana Fernandes, University of Porto
Prof. Dr. Rudi Goossens, University of Ghent
Dr. Mario Hernandez, UNESCO
Dr. Karsten Jacobsen, University of Hannover
Dr. Bernard Lacaze, University of Paris I
Dr. André Marçal, University of Porto
Dr. Keith McCloy, Danish Inst. Agricultural Sciences
Dr. Rainer Reuter, University of Oldenburg
Dr. Lucien Wald, Ecole de Mines de Paris
Dr. Peter Winkler, FÖMI R.S. Centre, Budapest

CALL FOR PAPERS

Papers will be presented orally and by poster. Both are considered of equal standing and no distinction is made between them in the proceedings. Authors who prefer a poster presentation should notify the organisers. An abstract of approximately 500 words (one A4 page) should be forwarded **preferably by email**, no later than 6 November 2004, to:
